# Test ggplot2.2.0

Contents

```r
library(ggplot2)
```

```
## Warning: package 'ggplot2' was built under R version 3.3.2
```

```r
ggplot(mpg, aes(displ, hwy)) +
  geom_point() +
  scale_y_continuous(
    "mpg (US)",
    sec.axis = sec_axis(~ . * 1.20, name = "mpg (UK)")
  )
```

```r
ggplot(mpg, aes(displ, hwy)) +
  geom_point(aes(color = class)) +
  geom_smooth(se = FALSE, method = "loess") +
  labs(
    title = "Fuel efficiency generally decreases with engine size",
    subtitle = "Two seaters (sports cars) are an exception because of their light weight",
    caption = "Data from fueleconomy.gov"
  )
```

Fuel efficiency generally decreases with engine size

Two seaters (sports cars) are an exception because of their light weight

Data from fueleconomy.gov
